

TRAN BAO LONG

PHP Web Developer Intern

 +84 924 411 550

 tranbaolong0701@gmail.com

 Thu Duc, Ho Chi Minh City

 <https://github.com/BaoLong05>

OBJECTIVE

Motivated **PHP Web Developer Intern** with a solid foundation in web development and hands-on experience building academic and personal projects using **Laravel, MySQL, and Reactjs**. Seeking an opportunity to contribute to backend development, collaborate in real-world projects, and further develop into a professional **Full-Stack Developer**.

PROJECT

Duty Management System – Scientific Research Topic

10/2025 - Present

Team Leader – Fullstack Developer

- **Github:** <https://github.com/tailieuweb/tdc-duty-management-system>
- **Technologies:** Laravel (Backend), ReactJS (Frontend), MySQL.
- A web platform for managing scientific research appointments between students and lecturers.
- **Responsibilities:**
 - Implemented automatic reminder notifications 1 day before each appointment.
 - Implemented real-time notifications for new appointments / changes / cancellations. (for lecturers).
 - Developed feedback & rating feature after each appointment (for students).
 - Built appointment history tracking by timeline (for students).
 - Integrated file attachment uploads in appointments (PDF, PPT, Word).
 - Implemented add / edit / delete suggestions & comments.
 - Developed AI Chatbot for instant Q&A support.
 - Exported statistical reports to Excel.

E-Commerce Electronics Store

10/2025 - Present

Team Leader – Fullstack Developer

- **Technologies:** WordPress, WooCommerce, PHP, MySQL, Elementor, ACF.
- **Responsibilities:**
 - **Built the Cart Page** using WooCommerce Cart System:
 - Implemented add/update/remove items, auto price calculation, quantity update, and AJAX cart refresh.
 - **Developed the Checkout Flow** (WooCommerce Checkout):
 - Implemented order creation, billing information, shipping details, order submission, and integrated payment options.
 - **Implemented Sale % Feature:**
 - Added product sale percentage display using WooCommerce sale price rules + custom PHP hooks.
 - **Added Voucher/Coupon System:**
 - Integrated WooCommerce Coupon API, applied discount codes, and validated coupon conditions.
 - **Implemented View Count Tracking:**
 - Built custom meta fields to count product views and display popularity ranking.
 - **Created Related Products Feature:**
 - Customized WooCommerce related-product query to show similar electronics items.
 - **Custom Template Development (+0.1 each):**
 - Modified and built custom WooCommerce templates for product listing, product detail, and shopping flow using PHP + Elementor + ACF.

E-Commerce Clothing Website

03/2025 - 05/2025

Project Member – Backend Developer

- Github: https://github.com/hoangvu230725/project_nhomf
- **Technologies:** PHP, Laravel Blade,, MySQL, Bootstrap.
- A clothing e-commerce website that allows users to browse products, add items to the cart, and proceed with online checkout and payment.
- **Responsibilities:**
- Developed features to add / remove / update product quantities in the shopping cart.
- Built the checkout flow and implemented payment processing (COD, e-wallet).
- Applied discount codes to the order total.
- Captured and stored customer information during checkout.
- Handled order creation logic and status updates.

EDUCATION

2023 - 2026

Web Development

Thu Duc College of Technology

Major: Software Engineering – Web Development

GPA: 3.0 / 4.0

Focused coursework: PHP, Laravel, MySQL, JavaScript, OOP, Web Security, RESTful API.

SKILLS

Hard Skills

- **Programming Languages:**
- PHP, JavaScript, HTML, CSS, C#, Java.
- **Frameworks & CMS:**
- Laravel, ReactJS, WordPress,Bootstrap.
- **Design Pattern:**
- MVC, Factory.
- **Design Principle:**
- SOLID, DRY, KISS, YARN.
- **Databases:**
- MySQL (schema design, query optimization, and relational modeling).
- **Development Tools & IDEs:**
- Visual Studio Code, PhpStorm, Git, SmartGit, XAMPP, Docker, Vagrant, Figma.
- **Project & Version Control:**
- Git, GitHub, SmartGit (branching, merging, pull request management).
- **Core Technical Concepts:**
- Object-Oriented Programming (OOP), MVC Architecture, RESTful API design.

Soft Skills

- Communication Skills.
- Teamwork & Collaboration.
- Problem Solving.
- Time Management.
- Attention to Detail.

Languages

- **English:** Able to communicate effectively and read technical documentation.
- **Chinese (Mandarin):** Basic conversational skills.

ACTIVITIES

2023 - Present

DawnBand

Leader

- Performed at school and local events.
- Learned teamwork and coordination through live musical performances.
- Managed rehearsals and event schedules with the team.

INTERESTS

- Learning about clean code, system design basics.
- Building personal coding projects and learning the fundamentals of UI/UX design.
